Acknowledgements

Thanks to Mr. Gene Todd who donated the Yopp Funeral Home records to the library for his generous gift. Mr. Cliff Williams was the individual that contacted Mr. Todd and arranged for the gift.

Introduction

Yopp Funeral Home was a prominent Funeral Home in Wilmington from 1892 through 1971. Thanks to the gift of records from Mr. Todd to the New Hanover County Public Library, we have been able to record some 6,000 deaths where services were performed by Yopp Funeral Home.

These records are not complete and many of the names are contained in missing volumes. One must note that the early records kept by the funeral home were for bookkeeping purposes and not for any genealogical references. Starting in 1918 the records contained many of the vitals you would find on the death certificate.

Volume 2

Starting on January 1, 1938 until 1971, Yopp filed the record of each deceased in a shuck. These shucks are in chronological order. Mrs. Ann Hewlett Hutteman has prepared an alphabetical index for the shucks, which are available in the North Carolina Room of the New Hanover County Public Library, where they are filed in twenty-two boxes in chronological order. The records contain much of the information one would find on the death certificate plus in many cases copies of obituaries, telegrams, and correspondence from family members. Many of the shucks list the active pallbearers and surviving family members. Shucks for 1938 through 1966 are in the New Hanover County Library, North Carolina Room Collection.

New Hanover County records may be used to cross-check death dates shown in these records if the death occurred in New Hanover County.

Format

The name of the deceased is followed by the death year and the shuck number. A number following the year is a sequence number for that year in the Yopp register.

This Index is also available in printed form at the New Hanover County Public Library, North Carolina Room, and as a publication for sale by the Old New Hanover Genealogical Society.

Name spellings can vary considerably, even common given names. The researcher is urged to consider alternate spellings if the name they are seeking is not found.
