Compugenics by Gerald McKenzie

Well, is everyone hot enough? Wilmington has seen very little rain and enough heat to last through the winter. I'm writing this in the second week of July and having lived here since 1974, I can't remember a summer of such sustained high temperatures. Speaking of high temperatures, I'd like to remind all of you to do some simple maintenance on your computer system that might well save you a lot of money. Over a long period of time the many air ventilation inlets and outlets of your computer box, monitor and printer become partially blocked with dust and lint. This causes a slowdown in the movement of cooling air in all of these components and in turn elevates the temperatures at which these components operate. Such elevated temperatures could significantly reduce the life of your system components. Please take five minutes to clean the dust and lint from all of the slotted or screened openings ... use a dust cloth (and a small paint brush to get into the smaller openings). Be especially aware of any build up on the fan opening on the rear of your computer box. Make sure that you do the cleaning in a POWER OFF condition.

The CD collection in the Local History Room of the New Hanover Public Library has a new addition to the IGI CD's of the LDS collection. There are 17 new Addendum disks covering all countries which supplements the 1994 main IGI library with the latest 95/96 data.

Family Tree Maker has announced Super Bundle #3 which consists of World Family Trees #'s 13,14,15,16 & 17. The price is \$59.99 for all five as opposed to \$39.99 each if purchased separately. The latest WFT release is #21. So look also for a Super Bundle #4 consisting of 18,19,20,21, & 22 in the late fall. Again I caution you all to treat these "trees" more as a lead or series of clues in the location of an ancestor. These CD's are woefully lacking in source information and a great percentage of the dates are estimates.

However, the data did come from somewhere and the person who submitted it can be contacted. Nevertheless, let the user beware.

I have noted with great interest the significant drop in desktop computer systems. Especially for the low end 200/233/266 megahertz systems. Compaq, Acer and many other mail order systems can be had for under \$1000.00 including monitor and sometimes a color printer. Some specials being run at Office Depot and Walmart advertise such systems for under \$1000.00. These systems have a substantial hard drive, 32 megabytes of RAM, a high speed modem, excellent video, CD-ROM drive and an excellent repertoire of preloaded, ready to run, software. For the genealogy professional or amateur, these systems will run any of the genealogical software as well as perform well on the World Wide Web of the Internet. All have Windows 95 or 98. If you have held off purchasing a computer for a few years, now is the time to plunge. Locally we have Sam's Club, Office Depot, Office Max, Walmart and Circuit City as in-town suppliers. It pays to make the circuit and compare what each offers and for what price. They all have either lowest price guarantees or matching price policies, so don't be afraid to mention this to the salesperson if you find a combo you like with the price of a single component somewhat higher than at the previous store ... usually they will drop the price of that component to match that of the other store. Make sure of what the warranty is and that you are satisfied with the service/support plan should you have problems. Also, check into an on-site service plan if you are worried about dealing with a problem.

When our fall meetings resume I plan to repeat the same series of seven topics for the Computer Special Interest Group. The ONHGS meetings are announced elsewhere in this issue and the CSIG will precede those meetings by one hour.

The following was taken from a Dear Abby column dated September 23, 1998. It concerns the sole use of computer disk storage for your genealogical records and was taken from the Archives & Archivists LISTSERV. [Submitted by the editor].

Don't Trust Disks for Family Documents

Dear Abby:

There is a genuine tragedy awaiting "Wondering Mom" and anyone else who thinks that storing precious family information on a computer disk is the perfect high-tech solution to the problem of combining preservation and privacy.

By the time her 2 ½-year-old daughter is old enough to care about her grandfather's autobiography, no one outside a couple of computer museums will be able to retrieve it from the disk - if she's incredibly lucky. I've been using computers for 20 years, and I have multiple generations of disks gathering dust now that, for all practical purposes, are unreadable. The hardware changes. The software changes. Beware!

If "Wondering Mom" wants to save that document, she should print it out now, giving thought to the printer and print cartridge, on 100 percent cotton or linen rag buffered paper with a neutral pH, and store it in a nondestructive archival folder in a dark, safe place, like a safety deposit vault. Abby, you should have told her to use the silly disk for a coaster (after printing the file). That way it would be good for something.

Dennis Grafflin, Professor of History, Bates College, Lewiston, Maine

Dear Professor Grafflin:

Thank you for offering your computer expertise, and warning my readers not to blindly expect technology to solve their archival problems. In many instances, paper is still the way to go.

Share Your Libraries With Fellow ONHGS Members

Dear ONHGS Members,

We are trying to amass a list of genealogical holdings held by the membership. In a casual survey by the Computer Special Interest group it was determined that a vast amount of source and research information is held by individuals that could possibly be made available for research if one knew where to find such material.

So, in addition to our "Interested Surname" list, we will compile a list of genealogical materials held by our membership and ultimately publish this list for our membership. Such materials held by our members would include: genealogical books, compact disks, journals subscribed to, family histories, genealogies, limited editions of published data, large compilations, and so on. The member submitting could list (or not list) the materials of their choice thus maintaining personal control over privacy and access. The member may also state any restrictions related to all or specific items listed.

The input sheet on the following page, accompanied by a sample input, will be used to submit the data for compilation (make extra copies of the input sheet if your entries are expected to exceed thirteen). Any restrictions may be noted in the right hand margin.

News From the New Hanover Public Library

The *Courier* editor (who lives another life as the Local History and Genealogy Librarian) apologizes for the lateness of this quarterly. As mentioned in the last *Courier* I have been busy with the publication of Bill Reaves' massive work, "*Strength Through Struggle*"-- *The Chronological and Historical Record of the African-American Community in Wilmington, North Carolina, 1865-1950*. The book was presented on September 19, when the library hosted a dinner celebration at Thalian Hall Ballroom. Bill, the guest of honor, made a grand appearance despite his hospitalization (the doctor gave him a pass to attend the event) and about 200 friends and history lovers had a grand time. The book (600 pages with 264 photographs) has had a warm reception in the community. It chronicles the social life, churches, schools, community affairs, political affairs, military affairs and businesses of the local citizenry, as well as 100 pages of biographical sketches of local citizens. The family historian in Bill insisted on including the many lists of names contained in the book which help the genealogist learn more about his family and their participation in local events. When asked why he became so interested in African-American history and genealogy, Bill replied, "I'm interested in everyone's history!" The remarkable number of family files that he has contributed to the library's local history room are testament to his passion. The genealogical community cannot thank him enough for his life's work which he shares with anyone who asks. He is home from the hospital and feeling good enough to continue to add to his family files.

"*Strength Through Struggle*" can be purchased at any library branch for \$20.00 and through the mail for \$30.00. The price includes tax, shipping and handling.

New From the Files of Bill Reaves

The following family files have been added to the Bill Reaves Collection: Calder; Campbell; Charles; Crumpler; Dozier; Erambert; **Hankins**; **Hinton**; Josenhaus; Johnson (parts 1 through 6); Kershaw; **McLendon**; **O' Shields**; Stedman; and Stone.

African-American family files include: Atkinson; Arnold; Allen; Alston; Anderson; Armstrong; Andrews; Avant; **Artis**; Austin; Albritton; **Ashe**; and Atkins.

If you want a copy of one of these files send a request with a self-addressed-stamped envelope to North Carolina Room, New Hanover County Public Library, 201 Chestnut Street, Wilmington, NC 28401. The library staff will inform you of the number of pages and the cost of sending the file (15 cents per page plus postage). You can also call us at (910) 341-4394 or contact us by email at btetterton@co.new-hanover.nc.us or jsheppard@co.new-hanover.nc.us.

New Books

Anders, Andres, Address, Andrews, Anderson Family of Southeastern North Carolina, was recently published by William E. Oakley. John Anders settled in southeastern North Carolina in the early 1700s and his descendants have lived in ten southeastern counties with one branch moving to Alabama. The book is 540 pages in length and includes over 1300 descendants of John Anders and over 2000 Anders' spouses and children of females whose maiden name is Anders. Each family is listed chronologically and on separate pages with all references annotated and expanded upon as necessary.

It took Mr. Oakley more than 15 years to complete his findings. Paper back editions can be purchased for \$35.00 or a hard bound edition for \$60.00 (prices include postage and handling). To place an order call 910-762-7983 or by mail at 514 Wayne Drive, Wilmington, NC 28403 or e-mail OAKLEYW@AOL.COM. Bill can also be found most days at the public library researching his new book.

ONHGS member Mrs. C. Knox Council has recently completed and had published for the NC Division United Daughters of the Confederacy, a book entitled *North Carolina Roster, 1897-1997, United Daughters of the Confederacy and their Confederate Ancestors of the War Between the States*. The book covers 100 years of history which has been compiled from members application papers from every UDC chapter since being organized in 1897. There are approximately 60,000 names in this book with an alphabetical listing of all members of the UDC from 1897 through 1997 along with her chapter number and her

Confederate ancestor(s). There is also an alphabetical cross index listing of Confederate soldiers, his company and regiment, as well as the name(s) of UDC members who joined the organization through the soldiers service record.

The hard bound book is 626 pages in length. Copies may be purchased for \$40.00 (add \$4.00 shipping & handling). Make checks payable to NC Division Treasurer and mail to Mrs. C. Knox Council, 314 Country Club Drive, Jacksonville, NC 28546.

Cape May, NJ Connections

Many families left Cape May New Jersey in the 1700s and settled in southeastern North Carolina. If you are looking for the following families you may want to search the early NJ records: Ebenezer **Swain** (before 1729); Jonathan **Swain** (before 1729); Hope **Willetts** (before 1748); Joseph **Hewett** (1755); Henry **Leonard** (1755); Benjamin **Holden** (1755); **Ludlam** Family (1755); **Hand** Family (1755); **Townsend** Family (1755); James **Jacocks** (before 1732); **Eldredge** family (1755).

The above information was provided by Carl Swain, P.O. Box 547, Claxton, GA 30417-0547. Mr. Swain has also generously given the public library two books relating to records of Cape May/Lower Cape Fear families: *Colonial Families of Cape May, New Jersey* and *Documents Relating to the Colonial History of the State of New Jersey*, Vol. XXII.

NEW HANOVER COUNTY DEED BOOK "D"

[Many of New Hanover County's earliest records were destroyed by courthouse fires. What was left of the county's first two deed books, A and B, was combined to form book AB. This book was abstracted many years ago by Mae Blake Graves. Deed Book C was published in the *Courier* from 1993 to 1996. This series of abstracts from Deed Book D began in the Summer 1997 issue of the *Courier*. New Hanover County was formed in 1729 from Craven County. Bladen and Onslow counties were formed from New Hanover in 1734, Duplin County in 1750, Brunswick County in 1764, part of New Hanover was annexed to Sampson County in 1795, and Pender County, last but not least, broke away from New Hanover in 1875. The following abstract of Deed Book D, which covers many early records from the above counties, was compiled by Ida Brooks Kellam in 1939 and 1940.]
